# Stimulus Pearls

**A Collection Of Stimulus.js Tutorials**

**Updated for Stimulus.js 2.0**

A Collection Of Stimulus.js Tutorials	I
Updated for Stimulus.js 2.0	I
Introduction	6
Stimulus.js Tutorials	7
Setup	7
Is using Webpack in Rails worth it?	7
Why even consider JavaScript then?	8
If you like Bundler, you'll like Yarn's integration into Webpacker	8
A Slow Slog to Setup	8
I'd recommend Webpack for your Rails app	9
Where do I store my state in Stimulus.js?	10
<head> State	10
<body> State	11
Controller State	11
Convert your jQuery snippet to a Stimulus controller	13
'turbolinks:load' to connect()	13
IDs to Targets	13
jQuery Events to Controller Actions	14
Leveling up	14
The Possibilities are endless	14
How Do I Update My Model From A Checkbox?	15
How Do I Drag and Drop Items in a List?	18
How do I filter data in a list or table?	24
Let's Make an In-place Editable Todo Entry	26
Interactive Deletes with Rails UJS	29
The HTML	29
The Stimulus Controller	30
Ruby Controller	32
Practice?	32

Interactivity	33
Implementing Radio Selection in a Form	34
Stimulus Controller	35
Radio Selection Unselect	36
The HTML	36
The Controller	37
Don't Lose Unsaved Form Fields	39
How?	39
HTML	39
Stimulus Controller	40
Don't accidentally walk away from your Active Storage	42
How?	42
HTML	42
Stimulus Controller	44
Let's create an ActionText Editor plugin using Stimulus.js	46
Let's Add an Emoji Converter to ActionText with Stimulus	50
Adding Stimulus	50
Modeling More Complex Datasets in Rails	52
Using multi select to pare down a large set of data	55
Refactor the Books index action	55
Add the new Books Filter Controller	57
Using Stimulus to Wrap It All Together	57
Multiple Selects that Filter Enterprise Data Models	59
Refactor, Refactor, Refactor	59
Refactoring Our Stimulus Controller	60
Build a Markdown Editor in Stimulus.js like in Vue.js	62
HTML - Vue.js	62
HTML - Stimulus.js	62
JavaScript - Vue.js	63

JavaScript - Stimulus.js	63
Conclusion	64
Handling and Templating JSON Responses	65
The HTML	65
The Controller	66
Templating with Stimulus	68
Stimulus loves JSON	68
Grabbing ActionCable	69
Where to begin?	69
Adding Stimulus	71
The HTML	72
The Controller	72
Asynchronous Interactivity	74
Stimulus + ActionCable + ActiveJob: Loading Asynchronous API Data	75
Background Service Jobs	75
ActionCable Channel	76
Stimulus - Commits Controller	76
The HTML and Controller	77
Some More Practice	78
I. Use a different API endpoint	79
II. Use a real life request identifier	79
Tables in ActionText	80
Visual Configuration	80
Trix Additions	82
The Table model	84
Table ActiveRecord	84
Table Controller	85
Table Views	87
End of First Pass	88

Table Editor Controller	88
Putting it together	91
Testing Tables in ActionText Using System Test	92
Writing the test	92
Peace of mind	94
